

EXCAVATOR GRAB

WORLDS FIRST ADJUSTABLE EXCAVATOR ATTACHMENTS

Adjustabucket is an Australian Owned business with our specially designed patented excavator attachments. Our excavator attachment gives you the option of adjusting your grapple buckets to suit your excavator machine. Even if you decide down the track to upgrade your excavator machine, you can keep your excavator attachments and resize the ears and use with right size pin to fit your new machine.

Patented Adjustable Design and made from Hardox steel for greater durability

Grapple applications include:

- construction work, stone laying, moving trees and shrubs, demolition work, debri, pipes, disposable waste, scrap, garbage, bricks, rocks, roots, logs, tyres, mining & quarry work
